

DRILLING SERVICES

Cascade provides the ease of working with a local team backed by the resources of a national provider.

With the largest drilling fleet and widest range of drilling technologies in the U.S, we have the equipment, experts, and experienced crews to help you achieve your project goals safely, on time and on budget. If you have other site needs, take advantage of our integrated approach and services—we have the capabilities to support your project from concept to completion.

THE CASCADE ADVANTAGE

- **Safety** - Cascade is compliant with Avetta, ISNetworld and other third-party qualifying sites.
- **Experience** - Rely on Cascade's elite team of drillers, geologists, and engineers to solve even the most complex site challenges. With an average of 24 years experience on the ground, our drillers have seen it all.
- **Equipment** - We maintain the largest fleet in the industry, offering sonic, air rotary casing hammer, mud rotary, reverse circulation, rotary wash, hollow stem auger, direct push, dual rotary, rotary and diamond coring technologies.
- **Versatility** - Our drilling technologies fit the needs of any drill site; our limited access, low clearance, truck, barge and all terrain carriers can get us to your drilling locations.
